TRANSFORM HOW YOUR EDUCATIONAL

INSTITUTION COMMUNICATES WITH UCAAS

Stay Connected, Stay Efficient
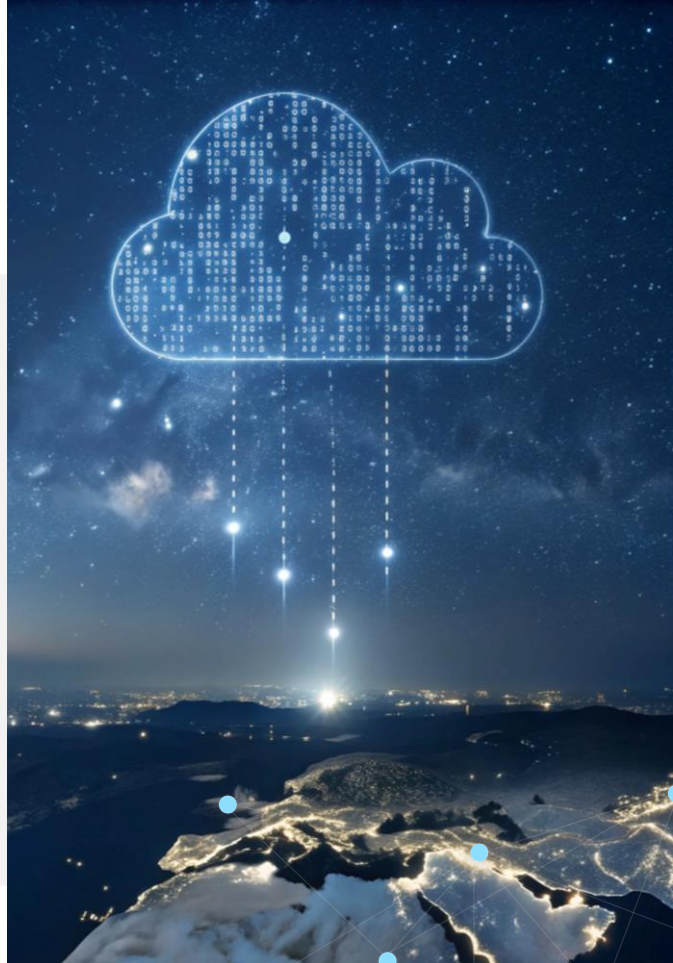

The Power of UCaaS for Education

WHY SWITCH TO UCAAS?

Educational institutions need reliable, scalable communication systems to support their staff, students, and stakeholders effectively. UCaaS (Unified Communications as a Service) offers the flexibility and ease of use that on-premises systems simply can't match. With UCaaS, your team can stay connected, foster collaboration, and quickly adapt to new challenges, all while reducing the burden on your IT department.

PROVEN SUCCESS IN EDUCATION

We've partnered with various educational institutions to transition their outdated phone systems to modern, cloud-based solutions. Even with tight budgets and small IT teams, these organizations have benefited from the enhanced communication capabilities of UCaaS. For example, during remote learning, institutions were able to seamlessly manage interactions between educators, students, and administrative staff from any location.

Testimonial

What I liked too is that Maverick Networks went into it not really with an agenda; they said, 'Hey, we're just going to help you find the solution that's going to best fit your environment and answer any questions that we can.'"

David Seabury, EDCOE

KEY BENEFITS FOR YOUR INSTITUTION

Remote Learning Support

Staff and faculty can make and receive calls from their smartphones or laptops, ensuring uninterrupted communication during distance learning or hybrid models.

Resilient Operations

In times of crisis, such as severe weather events or health-related closures, UCaaS ensures that critical communication between stakeholders continues smoothly.

Ease of Use

Tasks like updating call-routing for administrative offices or recording important messages are simplified, saving time and reducing the need for outside IT support.

Regulatory Compliance

Stay compliant with essential voice regulations, including the Ray Baum's Act and Kari's Law,

WHY WORK WITH US?

When you choose to partner with us, you're not just selecting a service provider—you're gaining a dedicated team of technology advisors with deep expertise in telecommunications. Here's why educational institutions trust us:

▶ **Tailored Solutions**
We understand that every institution has unique communication needs. That's why we carefully match you with the best providers and solutions that align with your specific requirements, whether for remote learning, administration, or stakeholder communication.

▶ **Streamlined Purchasing**
We help you navigate the complexities of the procurement process by offering options to buy off cooperative purchasing contracts, potentially avoiding lengthy RFPs. This allows for a quicker, more efficient path to getting the technology your institution needs.

▶ **Expert Guidance**
With over two decades of industry experience, our team provides reliable advice and insights. We keep you informed on the latest advancements in educational technology and ensure your institution is equipped with the best communication tools.

▶ **Proven Track Record**
We have successfully helped educational institutions modernize their communication systems, ensuring they remain operational and efficient during critical times.

▶ **Comprehensive Support**
From initial consultation to implementation and ongoing support, we're with you every step of the way. Our goal is to make your institution's transition to UCaaS seamless and stress-free for your team.

GET STARTED

Join the growing number of educational institutions that have modernized their communication systems with UCaaS. Contact us today to learn how we can tailor a solution for your unique needs.
